## Verse 2

The wind whistles there as she wanders  
Through the cracks and the panes  
Geegaws, lotions and hohum  
But everything sure had its place  
Silence there in the blue room  
Some things never change  
A soft bed blue song with red light  
But it all gets away someday

## Chorus

January was tumbleweed  
January was a whore  
January made my heart sing  
January is no more

## Verse 3

Turn your collar to the north wind  
To the cold and the damp  
And if you are going to write your name on the water  
You sure better know how to laugh

## Chorus

January loved sunshine  
Solitude but not alone  
January is gone now  
January is not home
