Verse 1

Sitting there at home you'll find him
Waiting all alone I know
He can't go out and face the demolition derby time
And there's just too much noise

Verse 2

The door is locked the lights all on
The fire burning brightly, hey but
'Round the comers are the shadows
Waiting there to pull him down and swallow
And I know
He called to say so

Verse 3

So far, it's 13 days
Still it's just not long for such a change
You feel so hollow
So cold
But I said try it for awhile
just one more day to get away
If you could add another on I bet
The worst would start to fade
Ah yes, but I know
It's hard
Hard to let go

Chorus

It's a chain of fire
And dungeon days
Ain't got nothing left
So get away

Bridge

Verse 4

Saw my friend go off the edge
Not so long ago
That mean old Jones had got him by the throat
A choking stranglehold
I heard him crying
Wanting help

Verse 5

So I said it takes time
But ask for more
You even know how long
Can you spend what you can't afford
Are you so lucky
So bold
Ah but I know

Chorus

It's a chain of fire
And dungeon days
Ain't got nothing left
So get away
